

Environmental Policy

The Asheville Regional Airport Authority (Authority) is committed to protecting the environment of Western North Carolina by operating in an environmentally responsible manner.

The Authority's goal is to minimize the operational impact to the environment while fostering the protection, stewardship, and implementation of resource conservation.

The Authority will:

- Comply with applicable laws and regulations, provide resources and implement programs and procedures to ensure compliance.
- Ensure that environmental considerations are included in business, financial, operational, and design decisions, including feasible and practicable options.
- Communicate environmental policies and programs to employees, tenants, contractors, and the public.
- Define and establish environmental objectives, targets, and best management practices and monitor performance.

It is a part of everyone's job at Asheville Regional Airport to work continuously on the commitment for a better tomorrow by adhering to best practices today.

ADDENDUM
to the
Environmental Policy

This Addendum to the Environmental Policy may be amended from time to time without the need to take formal action to the policy.

The beginning focus will concentrate on:

1. Improving the energy efficiency of operations and facilities by examining current procedures and practices to reduce energy consumption by 80% by 2050; and implement alternative energy options to further reduce the carbon footprint.
2. Implementing best practices for managing stormwater. Compliance plans and procedures will be completed by January 2011.
3. Exploring ways to partner with local/regional efforts for conservation and greenway opportunities along the adjacent French Broad River.
4. Encourage voluntary compliance with this policy by tenants of the Authority.
